SUMMARY REPORT

NORTHERN AFFAIRS CENSUS, 1982: PART II

INTRODUCTION

In June, 1982, the Department of Northern Affairs conducted a community census. The main purpose of this census was to confirm the current population of northern communities (excluding reserves) so as to allow for the distribution of unconditional grants in support of local municipal services. A secondary purpose, which is the subject of this report, was to obtain information concerning the skill levels, education, employment experience and employment wishes of the residents in these communities.

The information collected in Part II of the census (see copy of survey in Appendix) was obtained to help the government plan and develop appropriate training and education programs to ensure northern residents are able to take full advantage of employment opportunities, particularly those related to future resource developments in northern Manitoba.

Although all residents over 14 years of age were asked to respond to the survey, they were not required to complete the form. It is estimated that 20 - 25% of residents over 15 years responded to the Part II survey questionnaire. It is likely that the survey results are somewhat biased due to the voluntary nature of response. For example, persons interested in work on the major construction projects may have been more likely to fill in the questionnaire. Also, the Thompson administrative region shows a significantly lower response rate than other regions. However, the survey data can be used to describe the experience and aspirations of northern residents in general, as long as this limitation is kept in mind.

Additional information may be obtained from the Department of Northern Affairs, Agreements Management and Co-ordination Division, Development Services Branch, 920 - 405 Broadway Avenue, Winnipeg, Manitoba, R3C 3L6.

SURVEY RESULTS

Northern Affair's Dauphin administrative region had the greates number of persons responding to the survey, with 465 or 38.3% of survey respondents. The Thompson region had the lowest number, with 156 or 12.9% of respondents. (Table 1)

The survey response rate for the Thompson administrative region was quite low, with only 7.8% of 15 - 64 year olds in that region completing the questionnaire. Response rates in the other three regions were significantly higher, ranging from 28.7% to 34.9% in The Pas region. In all four regions, response rates for 25 - 64 year olds were slightly higher than for 15 - 24 year olds. (Table 2)

Over half of the survey respondents were of "prime working age" (i.e. 25 - 54). The 15 - 24 year old group accounted for 36.0% of respondents, which exceeded the percentage for the 25 - 34 year (25.1%) and the 35 - 54 year (29.8%) age groups. Slightly over half (51.9%) of respondents were male. (Tables 3 and 4)

Two-thirds of the survey respondents were Metis. The next largest group was non-native. Status Indians accounted for only 5.8% of respondents. (Table 5)

Most survey respondents were unemployed or not in the labour force (51.4%). A total of 495 were employed at the time of the survey (38.8%). A small proportion of respondents were attending school (9.9%). (Table 6)

The largest proportion of respondents no longer in school had completed grades 8 - 10 (44.9%). Men and persons aged 35 or older reported lower educational attainment on average than women and persons under 35 years of age.

A total of 159 persons (12.4% of respondents) indicated they ahd taken courses or training toward a certificate or diploma since leaving school. Teaching and nursing were the most popular courses taken. (Table 9)

A total of 670 persons (65.8% of respondents) indicated an interest in additional skills training. Of these, the greatest number were interested in training for construction trades (22.0%) and product fabricating and repair (18.2%) occupations. Service (12.1%) and clerical (11.7%) occupations were also popular. (Table 10)

A wide range of occupations was reported by those who were employed at the time of the survey. The largest occupations were services (15.2% of employed respondents), teaching (14.6%) and fishing, hunting and trapping (14.0%). (Table 11)

Those who reported employment at any time during 1981 were employed most often in fishing and trapping (33.8%), services (11.5%), construction (10.3%) and processing occupations (9.9%). The length of time worked in each occupation was greatest among those who held managerial and professional (e.g. social sciences, teaching), clerical, sales and farming jobs. Jobs of shorter average duration were in processing, fishing and trapping, and construction. (Table 12)

The principal occupation of employment in 1981 tended to be of longer duration for those in social sciences, sales and teaching. Persons whose principal jobs were of shorter duration were in processing, fishing and trapping, and construction trades. (Table 13)

Fishing, trapping and construction trades were the most frequently reported employment aspirations for the next five years. Persons unemployed or not in the labour force were most likely to indicate work in fishing, construction, trapping and forestry as their employment aspirations while employed persons most frequently indicated fishing, teaching, trapping, construction, and private business, and students most often reported nursing, construction and teaching as employment aspirations. (Table 14)

The majority of respondents were willing to relocate for either a job (55.7%) or for training (64.0%). In each region, the number willing to relocate for either purpose was greater than the number not willing to relocate. (Table 15)

A total of 584 respondents indicated an interest in working on major construction projects. For the given occupations, respondents were most frequently qualified as construction labourers and carpenters. There were also a significant number of persons qualified for kitchen helper, heavy equipment operator, cook, and truck driver/teamster jobs. (Table 16)

Of the persons interested in working on major construction projects, the greatest number mentioned an interest in construction labourer, carpenter, heavy equipment operator and kitchen helper jobs. Those who were interested in training most frequently indicated an interest in carpenter, construction labourer, and heavy equipment operator positions. (Table 17)

TABLE 1

REGIONAL DISTRIBUTION OF SURVEY RESPONDENTS
AND POPULATION AGED 15 - 64

Administrative Region	Number of Survey Responses		Population[1] (15-64)	
	Number	Percent	Number	Percent
Dauphin	494	38.8	1574	29.7
Selkirk	324	25.4	949	17.9
The Pas	289	22.7	776	14.7
Thompson	167	13.2	1994	37.8
TOTAL	1275	100.0[2]	5293	100.0[2]

NOTES:
1. Population of communities within the jurisdiction of the Department of Northern Affairs, based on 1982 Northern Affairs Census: Part 1.
2. Percentages may not add to 100 due to rounding.

TABLE 2

RESPONSE RATE BY AGE AND REGION

Age[1]	Response Rate[2] (Percent)				
	Region[3]				
	Thompson	The Pas	Dauphin	Selkirk	Total
15 - 24	7.5	30.8	27.5	30.5	21.0
25 - 64	8.0	37.9	29.4	32.4	23.8
15 - 64	7.8	34.9	28.7	31.7	22.3

NOTES:
1. Response rates are given for the population aged 15 - 64 years, under 15 and over 65 age groups were too small to give reliable information.
2. Responses as a percent of population for each age/region category.
3. Northern Affairs administrative regions.

TABLE 3

AGE OF SURVEY RESPONDENTS

Age	Number of Respondents	Percent
Under 15 Years	14	1.2
15 - 24	437	36.0
15 - 19	241	19.9
20 - 24	198	16.3
25+	762	62.8
25 - 34	304	25.1
35 - 54	361	29.8
55 - 64	73	6.0
65+	24	2.0
TOTAL	1213	100.0

TABLE 4

SEX OF SURVEY RESPONDENTS

Sex	Number of Respondents	Percent
Men	641	51.9
Women	592	48.0
TOTAL	1234	100.0

NOTE: Totals on each table may differ because some persons did not respond to all questions on the survey.

Percentages may not add to 100 due to rounding.

TABLE 5

STATUS OF SURVEY RESPONDENTS

STATUS	NUMBER OF RESPONDENTS	% OF TOTAL
Status Indian	66	5.8%
Metis	750	66.1%
Non-Status Indian	29	2.6%
Other	279	24.6%
Unknown	11	1.0%
TOTAL	1135	100.0%

NOTES: Percentages may not add to 100 due to rounding.

Total may not be the same on every table because some persons did not respond to all questions.

Information on status of respondents was derived by matching with Part I of the Census of Northern Manitoba.

TABLE 6

Sales	19	2.0	7.3
Service	108	11.5	5.2
Farming	32	3.4	7.2
Fishing & Trapping	316	33.8	3.4
Forestry	24	2.6	6.0
Mining	27	2.9	6.2
Processing	93	9.9	2.1
Machining	3	0.3	6.7
Fabrication & Repair	14	1.5	5.9
Construction	96	10.3	4.9
Transport	15	1.6	5.6
Material Handling & Other Crafts	5	0.5	7.2
TOTAL	935	100.0	5.0

NOTES: 1) Number employed gives the number of persons reporting some employment in a given occupation. The total of this column would give the total number of jobs held by all respondents in the previous year, not number of persons employed.

2) Average duration gives the average duration of each spell of employment reported for a given occupation.

Information is available at a higher level of detail on occupations.

TABLE 13

PRINCIPAL OCCUPATION IN 1981:

NUMBER EMPLOYED & AVERAGE DURATION OF EMPLOYMENT

PRINCIPAL OCCUPATION[1]	NUMBER EMPLOYED[2]	AVERAGE DURATION[3] (MONTHS)
Managerial & Administrative	23	9.0
Natural Sciences	8	8.5
Social Sciences	4	12.0
Teaching	27	9.5
Medicine	16	8.5
Artistic & Literary, Sport & Recreation	4	6.5
Clerical	42	9.0
Sales	13	10.5
Service	65	8.0
Farming	24	9.0
Fishing & Trapping	180	5.0
Forestry & Logging	15	8.0
Mining & Quarrying	21	7.5
Processing	42	4.0
Machining	3	6.5
Fabrication, Assembly, Repair	12	7.0
Construction	67	6.5
Transport	9	7.5
Material Handling & Other Crafts	3	7.0
All Occupations	613	7.0

NOTES: 1) Principal occupation is the occupation in which a respondent was employed for the longest period in 1981. Information is available at a higher level of detail on occupations.

2) Number employed gives the number of respondents who reported each occupation as being the one in which they were employed for the longest duration in the previous year.

3) Average duration gives the duration of the longest spell of employment reported by each respondent. This value will not necessarily equal total duration of employment for each respondent.

TABLE 14

EMPLOYMENT ASPIRATIONS FOR NEXT FIVE YEARS

BY CURRENT ACTIVITY

EMPLOYMENT ASPIRATION	CURRENT ACTIVITY			TOTAL
	STUDENT	EMPLOYED	NOT EMPLOYED

NOTE: Individuals may have indicated interest in more than one occupation. Percentages will not add to 100.

APPENDIX

SURVEY FORM

NORTHERN AFFAIRS CENSUS (PART II)
JUNE, 1982

A message from the Minister of Northern Affairs:

Currently there is very little information describing the education, skill levels, employment experience and employment wishes of the residents in northern communities. This information is being collected through the Northern Community Census in order that our government can plan and develop education and employment programs for northerners wishing to take advantage of jobs which may be available outside their communities, as well as for those persons wishing to live and work within their own communities.

You are not required to complete this form, however if you choose to participate in this part of the census, the information you provide will be kept strictly confidential.

Fraternally,

Jay Cowan

Please complete all the questions on both sides of this paper by putting a check mark ☑ in the box matching your answer or by writing your answer in the space provided.

Name of Community _____

Your Name is _____

Male ☐ Female ☐ Age _____

* Information provided in this census form will be kept strictly confidential.

EDUCATION

1. Are you presently attending school? Yes ☐ No ☐ If yes, what grade _____
2. If you have left school, what is your last grade completed? _____
3. List any skills training you have taken since leaving school.

Course/Skill	Year	College/Place	Did You Receive A Certificate Diploma
_____	_____	_____	Yes ☐ No ☐
_____	_____	_____	Yes ☐ No ☐
_____	_____	_____	Yes ☐ No ☐

4. What other employment skills do you have? _____

5. Are you interested in taking additional skills training? Yes ☐ No ☐
   Please list skills you are interested in _____

EMPLOYMENT

6. Are you presently employed (work for yourself or someone else)? Yes ☐ No ☐
   If yes, what kind of work are you doing? _____
7. Approximately how many months were you employed last year, and in what jobs?

Source of Employment	Months on the Job
Trapping _____	_____
Fishing _____	_____
Other jobs (Please list and Describe type of Work)	
_____	_____
